What is Informed Delivery®?

Informed Delivery is a free and optional notification service that gives eligible residential consumers the ability to see a preview of their letter mail, wherever they are, before it arrives.

Participating consumers receive an email containing grayscale images of the outside of their household's letter-sized mailpieces that will be arriving soon.

Notifications can also be viewed on the dashboard at informedelivery.usps.com.

Note: notifications aren't sent on days when there is no mail to be delivered, or on Sundays or federal holidays.
